

Hi there! I'm Saajan

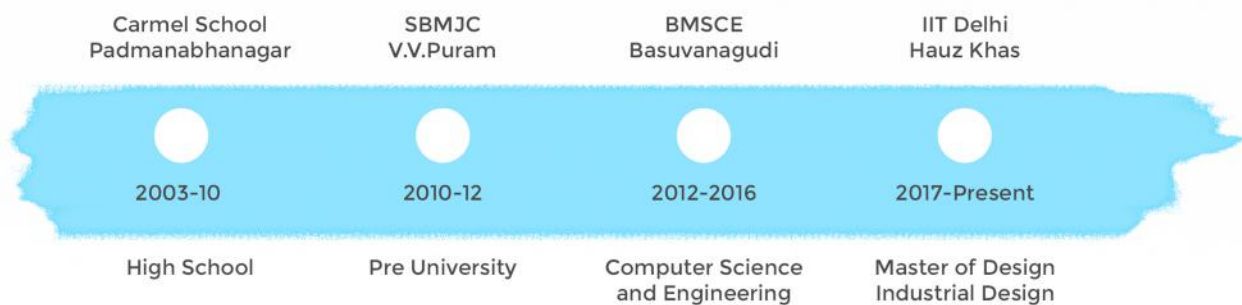

Part Computer Science Student & part Design Student

I completed my graduation with a Bachelor of Engineering from BMS College of Engineering, in the domain of Computer Science and Engineering with a personal inclination towards UI, Graphic and Product Design.

Getting into Master of Design Program at IIT Delhi gave me a chance to explore how a problem at hand can be explored and extensively evaluated with a systematic Design Process

My Academics

Projects ongoing

Cognitively Optimal VUI for Vehicular Domains
Research project that explores how a voice interaction can be evaluated and optimized through a design process.

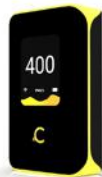

Design for Happiness
Design of a system to monitor and manage the happiness levels of individuals to assist them in nurturing their well being.

Past projects

REWER - Sustainable Apparel
Project executed as a semester project involved the design of a system for up-cycling apparel, thereby exploring usability and experience of a user

Canary Air Quality Monitor
Involved in the design of a system to help you to be aware of the air quality around you. System included hand held personal monitoring devices, wall mounted displays, TV information relays

Street Food Cart Research & Design
A UX Research and product design project executed to understand design for product acceptability, user experience analysis and how to build for the user with the user

Profitplus.co.in
Client project which involved designing the visuals for a finance consulting firm. The website redesign along with iconography and usability was made and launched in April 2018

Awards

Ford City of Tomorrow Symposium
2nd Runner up
Vision of smart cities

Station Rejuvenation Initiative by Joint Action
Finalist 2018
Project proposal selected as a finalist

D.I.L.O analysis
Physiological Testing tools
User Journey Analysis Card Sorting
Usability Testing In Depth interviews
Storyboarding Ethnography
Persona and Scenario generation

Skills Research & Design

Lo Fi and Hi Fi wireframe sketching
SketchApp Photoshop
Illustrator After effects
Premiere Pro 3DS Max
Branding Art Direction
Cinematography
